STORM IS SWEEPING COUNTRY

Ohio Cities Hard Hit Having From 12 To 16 Inches of Snow

BLIZZARD IS RAGING

Steam and Interurban Roads Demoralized—Temperature Takes a Tumble—No Relief is Promised.

[ASSOCIATED PRESS TELEGRAM]
Columbus, Feb. 23.—Ohio continued to be held today in the grip of the storm which broke over the state Sunday. At many points the earth was covered with from 12 to 16 inches of snow, from for to six inches of this being the result of the present disturbance. In central Ohio railroad schedules were said to be practically normal early today, but street car and interurban traffic was made more or less demoralized.

After touching ten degrees above zero early today in Columbus the mercury rose a few degrees and the snowstorm that broke over the city yesterday afternoon and continued until after midnight again assumed proportions of a blizzard.

Driven by a wind the velocity of which ranged from 15 to 30 miles an hour, the storm was reported to be general over the state today and the weather bureau forecast was for more snow and colder.

Lima reported twelve inches of snow with drifts of four to five feet. Akron, Zanesville and Canton were snowbound with similar conditions. Mansfield, one of the highest points in the state, encountered ten inches of the white.

The Ohio forecaster did not hold out the promise of immediate release from the grasp of the storm. Continued heavy snows today and tonight were predicted for the entire state with probably heavy fall in the southern part of the state.

Snow and continued cold was the prediction for Tuesday.

As the day wore on the storm throughout central Ohio increased in fury, the steady downpour of snow being driven by brisk winds. Railroad and trolley lines were badly crippled and wire facilities were failing at many points.

CAR TRAFFIC IS STOPPED AT DAYTON TODAY

[ASSOCIATED PRESS TELEGRAM]
Dayton, O., Feb. 23.—Business was practically suspended here today while the worst snowstorm and blizzard of the year swept the entire Miami valley. Reports from Troy, Piqua, Greenville and other cities in this section all confirm the fear that the entire section is hemmed in and shut out from the rest of the world. Telegraph and telephone wires are down in many sections of the county. Street car traffic is stopped temporarily within the city limits and the Springfield & Troy interurban line gave up against the storm at 10 o'clock and suspended operations.

Many rural towns are completely cut off from Dayton and the city is powerless to go ahead with relief work owing to the blinding storm. Some of the city employees quit today because they could not stand the strain of working in the storm. A twenty-four hours' snow is predicted in this valley by the weather forecast.

The Cooper hydraulic rushed over its banks at the Third street crossing this morning when ice stacked up against a bridge. The tracks of the Erie, Big Four and C. & D. railroads are flooded for almost a foot and unless the ice is dislodged there is fear that the electric light plant here will have to close, meaning a dark city tonight.

TRAFFIC IS TIED UP AT CINCINNATI

[ASSOCIATED PRESS TELEGRAM]
Cincinnati, Feb. 23.—The blizzard that began here last night continued today with unabated fury. The weather bureau held out but little hope of a cessation of the storm until Tuesday night or Wednesday. Zero weather and continued snow is predicted for tonight. At 9 o'clock today about three inches of snow had fallen and the wind was blowing at a rate of forty miles an hour.

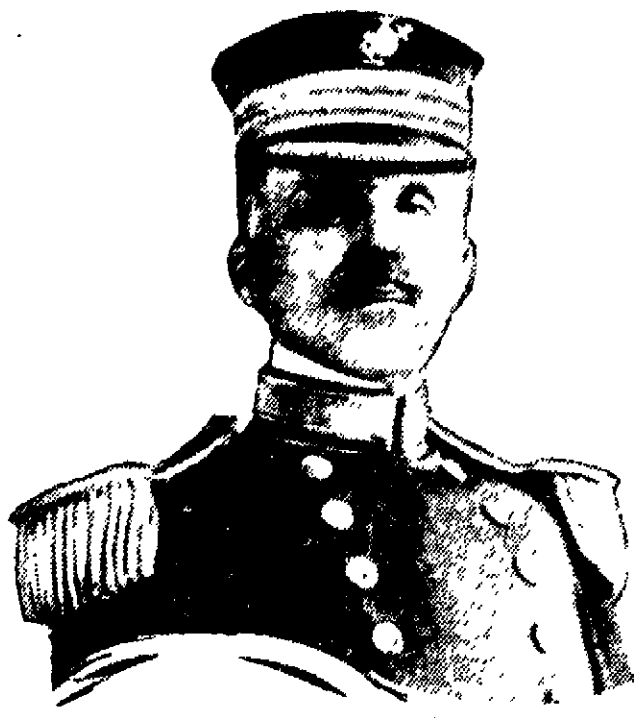

The snow, falling on that deposited by the storm of last week, has tied up all traffic in this city. While no car lines were entirely out of commission, the service was slow. Trains were delayed several hours.

Reports from points throughout southern Ohio indicate that similar conditions prevail.

BIG SNOW DRIFTS.

[ASSOCIATED PRESS TELEGRAM]
Canton, O., Feb. 23.—With a temperature at five degrees above

GENERAL GEORGE BARNETT, COMMANDER U. S. MARINE CORPS

General George Barnett took command of the United States Marine corps today.

the zero mark today and a high wind blowing, snow was drifted badly in many cuts of trolley and steam railroad tracks. All trains were late. A shortage of coal at factories is threatened. Should more snow fall within a day or two and delay the bringing in of an additional supply from mines some plants will halt operations.

BLIZZARD ALSO VISITS THE EAST

[ASSOCIATED PRESS TELEGRAM]
Washington, Feb. 23.—A howling Tennessee blizzard, something rare in the varieties of a winter, is the latest storm to whip the East with icy rains and snow. The weather observers descended from their aeries today and described the storm as "vigorous." Driving snows were falling in the Ohio valley, the middle Atlantic states and southern New England, while the south Atlantic and Gulf states were having cold rain.

A cold wave following in its wake, it was predicted, would drive the thermometers down south of the Ohio and east of the Mississippi. Storm warnings were ordered up all along the Atlantic coast from Cape Henry to Eastport, Me. The probabilities were, however, that the storm will be short lived and pass out to sea by Wednesday, to be followed by a warmer spell.

WORST STORM OF WINTER RAGING IN MIDDLE WEST

[ASSOCIATED PRESS TELEGRAM]
Chicago, Feb. 23.—The worst snowstorm of the winter which started yesterday, early today is raging over a large part of the middle west. Throughout Missouri, Iowa, central and southern Illinois, Kansas, Nebraska, Indiana and Ohio, a heavy snow is falling, accompanied by a high wind. Telegraph and telephone wires were demoralized, especially south and west of here, and steam railroad traffic was badly delayed.

In central Illinois and Missouri, many trains were reported stalled by the deep snow which was drifted badly by the wind. Interurban lines were put out of commission and in several cities street car traffic was entirely stopped.

Around Lake Michigan the storm abated during the night and early today it was clear and cold, the thermometer registering sixteen degrees above zero at 7 o'clock. Colder weather and snow was the forecast today for Chicago.

ST. LOUIS IS IN PATH OF STORM

[ASSOCIATED PRESS TELEGRAM]
St. Louis, Feb. 23.—A blizzard that struck St. Louis late yesterday afternoon continued today. Shortly after daylight a fine snow was being driven before a twenty-five miles an hour wind, delaying trains on most of the roads. The thermometer registered 14 degrees above zero.

The storm was general throughout eastern Missouri and southern Illinois.

The violence of the storm grew as noon approached and the train delays increased.

A Pennsylvania train from the East was marked eight hours late. A Burlington train from the north-west was five hours late, and Chicago trains were from one to two hours late.

ZERO WEATHER IN THE SOUTH

[ASSOCIATED PRESS TELEGRAM]
Dallas, Texas, Feb. 23.—A biting wind drove temperatures in north Texas, Oklahoma and southern Kansas down to forty to fifty degrees last night. Zero weather with snow prevails over part of the section.

Sunday afternoon the temperature at Dallas was seventy-one above zero. At 7 o'clock today it was sixteen degrees above. At Amarillo, Texas, and in the Oklahoma and New Mexico plains territory, the temperature dropped from forty to four degrees above.

INTERURBAN QUILTS.

[ASSOCIATED PRESS TELEGRAM]
Springfield, O., Feb. 23.—With

steam and traction service crippled, Springfield is held in the grasp of the worst blizzard this season. One traction line is unable to operate cars on account of the snow being eight inches deep. The Big Four and Pennsylvania railroads report trains from three to five hours late, and if the storm continues throughout the day, service will be practically paralyzed.

The gas pressure here is reported low, and it is feared there will be much suffering. The Salvation Army today made an appeal for funds and is caring for the needy poor.

TRAFFIC DELAYED.

[ASSOCIATED PRESS TELEGRAM]
Toledo, Feb. 23.—Snowfall here Sunday was five inches, accompanied by brisk, variable winds and minimum temperature four degrees above zero. Local and interurban car traffic was impeded, but little damage was done.

ZANESVILLE SUFFERS.

[ASSOCIATED PRESS TELEGRAM]
Zanesville, O., Feb. 23.—The worst snowstorm of the winter is raging throughout the entire Muskingum valley. More than eight inches of snow has fallen in this city since yesterday at 3 p. m.

The Wheeling & Lake Erie train from Cleveland due here last night at 9:30 arrived this morning at 7 o'clock, drawn by three engines.

FEAR ANOTHER FLOOD.

[ASSOCIATED PRESS TELEGRAM]
Gallipolis, O., Feb. 23.—This section of the Ohio valley is in the grasp of the most severe blizzard for many years. Street car traffic paralyzed and trains and steamboats are all greatly delayed. Residents along the river fear a repetition of the 1884 flood when conditions were similar. Fifteen inches of snow has fallen.

WIND DRIFTS SNOW.

[ASSOCIATED PRESS TELEGRAM]
Cleveland, Feb. 23.—With the mercury three degrees above zero, Cleveland and vicinity were buried under a heavy snow today, which drifted before a high wind and delayed trolley and steam railroad traffic. It is the heaviest snowfall of the winter. Much suffering among the poorer classes has been occasioned.

BLIZZARD AT PEORIA.

[ASSOCIATED PRESS TELEGRAM]
Peoria, Ill., Feb. 23.—Peoria remains today in the grip of one of the worst blizzards in the memory of the oldest residents. The storm begun early yesterday and continued without cessation until late this morning.

Telephone and telegraph wires are down. Railroad trains are running into the city hours behind schedule and much railway traffic is demoralized.

IN IOWA, TOO.

[ASSOCIATED PRESS TELEGRAM]
Burlington, Iowa, Feb. 23.—The worst snowstorm of the winter struck Burlington last night, and street railway traffic was completely paralyzed. Railroad trains were all late.

WIRE CONDITIONS BAD.

[ASSOCIATED PRESS TELEGRAM]
Kansas City, Feb. 23.—With only slight abatement the storm that swept into Kansas and western Missouri last night, producing the worst conditions of the season, continued today. Wire conditions were the worst known in this region for years.

Senate May Take A Hand Within The Next Few Days In The Mexican Situation

Troop Train Blown Up: Fifty-Six Men Are Killed

[ASSOCIATED PRESS TELEGRAM]
Veracruz, Feb. 23.—A government troop train carrying a company of infantry from Mexico City destined for Jalapa was blown up on Saturday afternoon by rebels. The wreck occurred near the Lima station of the inter-oceanic railway, 140 miles from Veracruz.

The explosion was terrific and the entire train was demolished. All on board, including fifty-five officers and men and the English Engineer were killed. A passenger train which was following in the wake of the troop train was fired on by the rebels, but escaped by backing rapidly.

HENRY M. TELLER DIES AFTER TWO YEARS' ILLNESS

[ASSOCIATED PRESS TELEGRAM]
Denver, Colo., Feb. 23.—Henry Moore Teller, former cabinet officer, and for more than thirty years United States senator from Colorado, died here this morning. Mr. Teller, who was 83 years old, had been ill for two years and his death was not unexpected.

Henry M. Teller was one of the "original silver Republicans," many of his supporters contended he was the first. He was so called at any rate, when he left the Republican national convention at St. Louis in 1896 because he did not agree with the gold standard plank of the platform and ran against it for the senate in Colorado as an independent silver Republican. He was elected with ninety-four votes out of 100, and after serving one term the silver Republicans in Colorado merged with the Democrats and Mr. Teller returned to the senate—that time as a Democrat. He served one term as such and retired in 1903 to make a place for the late Senator Hughes, also of the same party.

News of Mr. Teller's death was received with deep regret in congressional circles where those who were of his time referred to it as the passing of "another old line senator." Mr. Teller was one of the first two senators elected when Colorado became a state. He was accredited with being an exceptionally fine lawyer and sprang to the front in national affairs almost at once when he took a leading part in the congressional investigation of the Hayes-Tilden controversy in 1876.

Distinction came to him later in other lines of congressional work; he always took a leading part in discussion of anything economic—on the tariff and monetary questions he was one of the first debaters. He was a stout champion of the West.

In 1883 Mr. Teller left the senate to enter President Arthur's cabinet as secretary of the interior. But he left that office again in 1885 to re-enter the senate.

Mr. Teller was born in Granger, Alleghany county, N. Y., in 1830. He practiced law in Binghamton, N. Y., went west to Illinois in 1858 and went on to Colorado in 1861.

EVANGELIST LYON HAVING SUCCESS AT TULSA, OKLA.

[Special to the Advocate]
Tulsa, Okla., Feb. 23.—Evangelist Milford H. Lyon, who conducted a successful series of meetings in Newark, Ohio, about 18 months ago, is meeting with good results here. The Lyon campaign in Tulsa will close in March. Dr. Lyon has had a great year with more than 10,000 converts so far. At the conclusion of the Tulsa meetings the Lyon party will return to Indiana, going to Logansport and Kokomo.

FOURTEEN DIE IN ATTEMPT TO RESCUE CREW

[ASSOCIATED PRESS TELEGRAM]
Wexford, Ireland, Feb. 23.—The survivors of the crew of the wrecked Norwegian bark Mexico were today taken off the barren island on which they landed Saturday. They have been there since then without food. Fourteen men were drowned in the various attempts made to rescue them.

WAS NEAR DEATH BY TAKING THE WRONG MEDICINE

Byron Stewart, residing in Hancock street, this city, narrowly escaped death on Saturday night when he mistook a bottle of potassium chloride for salts and took a teaspoonful of the drug.

In reaching for the drug the bottles bore a similarity and without noticing Mr. Stewart took the dose. He became critically ill and Dr. J. W. Barker was called and finding the man unconscious rushed him to the Newark Sanitarium, where for a time his life was despaired of. Hard work on the part of the attendants and physicians was effective and today his condition is reported as being greatly improved.

BUGGY BUILDER DIES OF APOPLEXY

[ASSOCIATED PRESS TELEGRAM]
Columbus, O., Feb. 23.—Charles D. Firestone, 66 years old, for many years one of the leading citizens of Columbus, was found dead yesterday morning. A stroke of apoplexy last night ended his life, physicians said.

Mr. Firestone formerly was head of the Columbus Buggy Company, now in the hands of receivers, but at one time one of the largest concerns of its kind in the country. The decline in its business. The company turned over to the manufacture of motor cars.

Mr. Firestone was the father-in-law of former Congressman Edward L. Taylor, who represented this, the Twelfth District, for a number of years.

SUNDAY GETS \$35,000 AT PITTSBURGH, PA.

[ASSOCIATED PRESS TELEGRAM]
Pittsburgh, Pa., Feb. 23.—It is estimated by the committee having in charge the "Billy Sunday" free will offering that the evangelist will take something over \$35,000, practically net—out of Pittsburgh as his share of the receipts of the eight weeks' campaign here.

DIES LEAVING CHURCH.
Upper Sandusky, Feb. 23.—Conrad Stephen, a pioneer citizen, dropped dead here Sunday, while on his way home from church.

Resolution May Be Introduced Proposing the Placing of U. S. Troops in Mexico As Constabulary For the Safeguard of Americans

RELATIONS AT A STRAINING POINT OVER BENTON AFFAIR

Secretary of State Bryan Will Not Affirm or Deny That He Has Demanded Production of Benton's Body—British Ambassador at Washington is Awaiting Official Reports of the Investigation of the Execution of British Subject—Missing American Cannot Be Located—Believed He has Been Killed.

[ASSOCIATED PRESS TELEGRAM]
Washington, Feb. 23.—Upon the developments of the next day or two in the case of William S. Benton, the British ranchman executed by the Constitutional leader, Gen. Villa at Juarez, seems to rest whether the Senate will take a hand in the Mexican situation.

Acting Chairman Shively, of the foreign relations committee, after a conference with President Wilson today, said if the Senate discussed Mexico, it probably would be upon some of the pending resolutions which for months have been side-tracked that the administration might be left free to deal with the problems.

There are three of such. One by Senator Penrose, proposing that the United States troops be placed in Mexico as a constabulary for the protection of Americans. Another Senator Fall proposes to put the Senate on record to the effect that Americans and their property must be protected. Still another by Senator Shepard concerns recognition of the belligerency of the constitutionalists.

If administration leaders let the Mexican situation break out in Senate debate it probably would be upon either or both of the first two.

Secretary of State Bryan today declined to discuss, deny or affirm whether he had demanded production of Benton's body. An examination of its wounds, it was pointed out, probably would disclose whether the Englishman was executed by a firing squad, or killed by one shot, and also whether his death was caused by rifle balls or revolver bullets.

Meanwhile no additional details of the killing had been received here, nor had further report been made of the safety of Bauch, an American, held as spy at Chihuahua.

Sir Cecil Spring Rice, the British ambassador, continued to await official reports and the result of the investigation into the killing of Benton before reporting further to his government at London.

Senator Fall did not read the message to Secretary Bryan the following telegram he had received from R. M. Dudley of El Paso:

"Will you use your influence to persuade Washington government to demand immediate surrender of Benton's body to proper authorities here, and also have competent medical examination before the body is decomposed. I am certain the body will show great abuse in addition to gunshot wounds."

Dudley is a railroad builder, who has operated in Mexico for many years and is now a refugee in Texas. Senator Fall did not read the message to the Senate, but forwarded it to Secretary of State Bryan without comment.

"The result of the inquiry conducted by the United States government will be awaited with restrained emotion, but it will have to be very conclusive in its justification of the inquiry into it if it is to satisfy not only British but we are glad to see American opinion as well."

The Standard says: "We cannot believe that the United States government intend to refer Great Britain to General Huerta for satisfaction. Such a procedure would be inconsistent with the principle of responsibility which President Wilson must feel for Mexico. It is not supposed that President Wilson is feeling easy in his mind over the murder of Benton. He has only the relations of the United States to Mexico to think of, but not the soundness and popularity of his own policy."

The pacification of Mexico is an object we honestly desire to see accomplished but it is impossible to effect it by British intervention. We do not intend to make any attempt that character which would be futile and impolitic."

This is the attitude of the British foreign office as outlined today by the House of Commons by Lord Dukes, Ireland, parliamentary under-secretary for foreign affairs.

(Continued on page 1, col. 2.)

BELIEVE VILLA HAS EXECUTED AN AMERICAN

[ASSOCIATED PRESS TELEGRAM]
El Paso, Texas, Feb. 23.—The fate of the missing Englishman, Laurence and Curtis, and the Americans Bauch and Harry Compton in Mexico, was still in doubt today, nor was there any promise that the body of William S. Benton would be produced by the Juarez authorities.

No word was received of the troop train which General Villa at Chihuahua said would be bringing fifteen subjects to Juarez, and among whom he suggested the missing foreigners might be found.

Americans at last obtained a version of the killing of William Benton which they believe to be true. It was that Villa knocked Benton down and then had two of his men take the Britishman into the backyard where the rebel general presently followed

A 1914 Ford Auto Added To Booklovers' Prize List

So tremendously popular has the Booklovers' Contest proved to be that the Advocate in appreciation of public favor takes pleasure in announcing a big increase in the list of prizes. Instead of giving 100 prizes amounting to \$3,000, this newspaper will give 136 prizes worth \$3,846.

The Advocate has just bought from A. P. Hess, Newark agent, a 1914 model Ford automobile and has obtained a number of other splendid prizes for readers of this newspaper. The first prize of \$500 cash will be increased, and other cash prizes will be given. Tomorrow's paper will contain the full list of 136 prizes.

Hundreds upon hundreds are joining in this delightful pastime of solving the pictures every day and it is to express our appreciation of the exceedingly cordial reception given the Advocate that this big increase in the list of prizes is made.

Just a word more—Right now is the time to start in the contest, if you have not already commenced. There is no entrance fee. This contest is free to Advocate readers. By giving a few minutes to the study of the few pictures already printed you will be on a par with every other contestant. Back coupons can be obtained at this office. Get them now and start in this educational contest. A contest of wits. Book knowledge isn't necessary. Ask for full details. Read the rules on page 2. Talk to your neighbors about it. Watch for the big list of prizes in tomorrow's paper. This is the greatest free prize distribution ever inaugurated in Licking County but nothing is too good for readers of the Advocate. It costs nothing to enter and you don't have to spend a cent in the entire contest unless you want to do so and then only 2c for each extra coupon you may want. Many are getting the catalogues (2c or 27c by mail) as they help in solving the pictures from day to day. However, you do not have to buy a single extra coupon or a copy of the catalogue in order to join in the contest unless you want to do so. Watch for tomorrow's paper. Begin now and every one of the 136 prizes will be worth winning.

Advocate Booklovers' Contest Prize Picture

WHAT BOOK IS MEANT BY THIS PICTURE?

- 1 - Breathe deeply of pure air and sleep with your windows open.
- 2 - Eat slowly, masticate your food well and drink nothing with your meals.
- 3 - Never force yourself to eat.
- 4 - Be temperate in all things.
- 5 - Don't worry.
- 6 - Consult a good dentist at least once every six months.
- 7 - Exercise regularly and moderately.
- 8 - Take a bath every day.
- 9 - Drink pure water freely.
- 10 - Keep your feet dry and avoid drafts.

COUPON NO. 12.

Newark Advocate Booklovers' Contest.

Title

Author

My Name

My Address

(12) FEBRUARY 23, 1914. (12)

Clip out your coupons neatly, and fill them out clearly and plainly, remembering that in the event of a tie for any prize between two or more contestants, neatness and clear writing will win the Judge's favor. The picture is to be a part of the coupon. Do not detach the coupon from the picture.

Send no answers whatever to the Advocate until the contest is ended by the publication of Picture No. 70. Any answers received before that time will be destroyed and will not be counted. Read the rules carefully.

Rules of the Booklovers' Contest.

Any person may compete in this contest who lives either in Licking, Delaware, Knox, Coshocton, Muskingum, Perry, Fairfield or Franklin counties, Ohio, except employees of the Advocate or members of their families.

Answers to the picture must be written upon the coupon blank which will be printed every day with each picture during the seventy publication days the contest will last. Both picture and blank must be clipped from the paper, and the blank properly filled in with the name of book and the author's name together with the name and address of the contestant written clearly and plainly in the space provided. Not more than one person's name may be written on any coupon.

Each picture will represent the title of only one book, but there may be some pictures that suggest the title of several books. For the benefit of contestants, and to allow for this variety of solution, any contestant may give as many as five answers to any picture, at will; but not more than one solution may be written on any coupon. If the contestant gives two answers as likely to include the correct one, two coupons must be used; if three answers, three coupons, and so on.

In each instance, whether the contestant gives one answer or five answers to any picture, both the pictures and coupon must be used for each of the answers; and not more than five answers to any picture will be permitted.

If any one of the five answers that may be given to any picture is correct, the contestant will be credited for the correct solution, and will not have the incorrect ones counted against his or her chances.

Prizes will be awarded to every contestant, by the Contest Judges, who sends in the largest number of correct answers upon the smallest number of coupons. Thus, if a contestant gives the correct answers to 70 of the pictures and uses only 70 coupons, that contestant will rate higher in the prize awards than one who uses 140 coupons or any higher number up to 250 for supplying the 70 correct answers.

If two or more persons, supplying the same number of correct answers, have used the same number of coupons for their answers, the highest rating will be given to the one whose answers are most neatly prepared, in the opinion of the judges.

No contestant will be allowed to submit more than one set of answers, which must include not less than 70 or more than 250 coupons, with accompanying pictures.

Positively no solution may be sent in to the Contest Editor until every one of the seventy pictures has been printed. Answers in complete sets, as just specified, above, will then be received in this office, and should be addressed to "Contest Editor," Newark, Ohio. The answers will be made strictly according to the correctness of each set of answers, and the correctness shall be determined by the Finding List, the

IF YOU HAD A NECK AS LONG AS THIS FELLOW, AND HAD SORE THROAT ALL THE WAY DOWN TONSILINE WOULD QUICKLY RELIEVE IT.

25c. and 50c. Hospital Size, 87c. ALL DRUGGISTS.

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backache or Bladder troubles. You—Salts—is fine for Kidneys.

Acid forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the back or sick headache, dizziness, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's uricous waste get about four ounces of Jad Salt from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salt is invigorating, harmless and makes a delightful, forceful lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

CHICHESTER'S PILLS

THE DIAMOND BRAND. Laidley's Kidney Pills. Sold by Druggists Everywhere.

BULL, SPLITTING SICK HEADACHE

Get a 10 cent Package of Dr. James' Headache Powders and Don't Suffer.

You take a Dr. James' Headache Powder and in just a few moments your head clears and all neuralgia and distress vanishes. It's the quickest and surest relief for headache, whether dull, throbbing, splitting or nerve-racking. Send someone to the drug store and get a dime package now. Quit suffering—it's so needless. Be sure you get Dr. James' Headache Powders—then there will be no disappointment.

WILL MEET THIS EVENING AT 7 O'CLOCK

Monday night at promptly 7 o'clock members of the West Locust Street Beautifying society will meet in the Y. M. C. A. auditorium for the purpose of completing the organization and hearing short talks on the manner and methods of beautifying homes and environments, thus making them both healthful and attractive.

All persons living in or adjacent to West Locust street, or any other citizens especially interested in such work, are cordially invited by the society to attend.

Hon. F. H. Ballou, secretary of the state horticultural society, has promised to be present and is expected to deliver a short address on civic improvement in a general way, with hints for application by the society.

DC IT NOW.

Newark People Should Not Wait Until It Is Too Late.

The appalling death-rate from kidney disease is due largely to the fact that the little kidney troubles are usually neglected until they become serious. The slight symptoms often give place to chronic disorders and the sufferer may slip gradually into some serious form of kidney complaint.

If you suffer from backache, headaches, dizzy spells, if the kidney secretions are irregular of passage and unnatural in appearance, do not delay. Help the kidneys at once.

Doan's Kidney Pills are especially for kidney disorders—they act where others fail. Over one hundred thousand people have recommended them. Here's a case at home:

George K. Buckel, 31 Granville St., Newark, Ohio, says: "I had pains in my back and kidneys and the kidney secretions were irregular in passage. I used Doan's Kidney Pills, procured from A. F. Crayton & Co.'s Drug Store, and they gave me relief."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Buckel had. Foster-Milburn Co., Props., Buffalo, N. Y. 61

CELEBRATE THEIR GOLDEN WEDDING

Statistics show that about one couple in a thousand enjoy the distinction of celebrating their golden wedding. The many friends of Mr. and Mrs. C. H. H. Paramore extend congratulations to them, that they have been so abundantly blessed with long life and that they could celebrate this very unusual event on February 16, 1914.

Mrs. Paramore, formerly Miss Jennie Painter, is the third one of her family who has lived to celebrate their fiftieth wedding anniversary. The others are Mrs. Anna M. Phillips of Utica, O., and William Painter, a brother deceased, of Fallsburg town ship. Mr. and Mrs. Paramore were both former residents of this county. On January 10th, 1862, Mr. Paramore enlisted for active service for his country in Co. G, 76th O. V. I., and served over three and one-half years. His service in the army took him over most of the confederacy, and many and thrilling were the experiences of this period of years.

It is perfectly fitting and proper that an event so unusual as this should receive more than passing notice, so they were invited to spend their anniversary day at the home of Mr. and Mrs. C. D. Paramore, 490 North Fourth street.

The out of town guests were Mrs. Anna M. Phillips of Utica, Mr. and Mrs. Albert C. Strate of Roseville, O., and Rev. and Mrs. J. R. Tibbles of Reynoldsburg, O. Mrs. Phillips is the eldest and Mrs. Strate the youngest sister of Mrs. Paramore and both were present at the wedding 50 years ago.

A very important feature of the day's celebration was the serving by the hostess of a five course 6 o'clock dinner. The dining room was very pretty and complete in all its appointments and being the color scheme.

Jonquills, golden arrow place cards, berries, small nut baskets, and dainty golden candles adorned the table. They received a number of very pretty presents. The estimable couple is a notable well preserved in health. They will return to their home in Pultenham, O., Tuesday.

RECEIVED HARD BUMP IN FALL AT THE RINK

Edward Turner, an employee of the A. H. Heisey Glass Co., was painfully injured at the roller skating rink in West Main street Saturday evening about 5:30 o'clock.

Turner was making one of the turns in the hall when the rollers slipped and he was thrown with great force, and in falling, struck the back of his head against the railing which divides the skating floor from the seats for the spectators. He was rendered unconscious and Dr. J. P. H. Stedem was called and gave him medical attention, later he was removed to his home, 332 Eastern avenue in Criss Bros' ambulance.

He was unconscious for several hours, but on Sunday his condition was greatly improved.

CLIMATE AND SLEEP

Climate has something to do with the amount of sleep required by a man. In India, for instance, sleep overtakes people at the most unexpected moments. Speaking at a dinner given in his honor at Simla when he gave up the post of finance member of the council, Sir Guy Fleetwood Wilson recalled his first budget statement before the council. "The day was abnormally hot and close, even for Calcutta in summer time. Partly owing to the heat, but partly no doubt owing to the wearisome effect of my first attempt at oratory, one by one every single member present went to sleep, and it is the simple truth that after awhile I actually fell asleep myself in the course of the delivery of my statement." This surpasses the feat of the late Duke of Devonshire, who passed in the middle of his maiden speech in parliament to yawn.

FRAIL, SICKLY CHILD

Restored To Health By Vinol—A Letter to Mothers.

Anxious mothers often wonder why their children are so pale, thin and nervous and have so little appetite. For the benefit of such mothers in this vicinity we publish the following:

Mrs. M. L. Cassidy, of Thomasville, Ga., says: "My little daughter was anemic, delicate and nervous. She had no appetite and seemed listless. We could not seem to find anything that would help her until we were advised to give her Vinol. Inside of two weeks after taking it she showed a marked improvement, both in appetite, vim and looks. I continued giving it to her and words fail to express my gratitude for what Vinol has done for her."

This child's recovery was due to the combined action of the medicinal elements extracted from cods' livers, combined with the blood making and strength creating properties of tonic iron contained in Vinol.

Vinol will build up and strengthen delicate children, old people, and the weak, run-down and debilitated. We return the money in every case where it fails. Frank D. Hall, Druggist, Newark, Ohio.

P. S.—Eczema Sufferers! We guarantee our new skin remedy, Saxo.

Love Song of a Bird.

"Just before an April dawn," says W. P. Pyecraft in "The Courtship of Animals," "the cock capercaille proclaims its love fever from a tree in a strange, unmusical serenade.

"With outstretched neck, drooping wings and spreading tail he gives forth a weird, uncouth kind of song, more or less divisible into three parts. He begins with a series of notes which remind one of nothing so much as the sound made by two sticks knocked together at intervals of ten to fifteen seconds, getting quicker and quicker and changing in key but at last they become bell-like. Then follows a series of sounds like the drawing of a cork out of a bottle, and these end with birdlike twitterings. By this time, however, the singer has worked himself up to an ecstasy of fervor so intense as toadden him to all that may be passing in the outer world."

To Cure a Cold in One Day. Buy a box of E. W. GLOVES' QUININE Tablets. Price 25c. per box. E. W. GLOVES' signature is on each box. 2c.

noon to a large and a most enthusiastic audience, by Miss Winifred St. Claire and her excellent company. This organization is one of the best and strongest stock organizations on the road today, and is giving productions equal to any dollar and dollar and a half attractions ever seen on our local stage. The company is well balanced headed by Miss St. Claire, a charming little actress, who besides possessing much stage talent has a magnetic personality, and will certainly have many admirers before the week is over. The scenery which was used in "The Wishing Ring" was beautiful and beyond doubt the best ever shown by a stock organization. In the part of Sally, Miss St. Claire shows her ability as a high-class star and was ably seconded by the members of her excellent company. If the performance this afternoon is any criterion we predict that the Auditorium will be packed to the doors the balance of the week. For tonight, Miss St. Claire offers Charles Frohman's great comedy success "Mrs. Temple's Telegram." Tuesday matinee "Polly Primrose," a stirring comedy drama, which takes you back to the days of '61.

At The Hartman. Coming after its triumph at the Knickerbocker Theater, New York, "The Sunshine Girl," bringing as its star Julia Sanderson, newest and daintiest of the Charles Frohman galaxy, will play two nights and a Wednesday matinee at the Hartman Theater, Columbus, opening Tuesday evening, March 3rd.

Following is the cast:
Pioneer Loren Simpson
Chin Bull Charles Hess
John Marshall Hall
Massachusetts Mabel Johnson
Virginia Marie Berry
Society's Mother Hoagwood
Society's Wife Jessie Simpson
British Officers Frank Tafel
British Soldiers Carl Brubaker
Quakeress Ruth Allen
Capt. Bonhamme, French Officer Paul Munch
Gen. Marion's Servant William Potter
Indian Lyndol Burkhart
Frontier Officer Merle Martin
Sentinel at Valley Forge George Beatty

High School Notes

Ned Putnam, class 1913, now at Denison, was a visitor last Friday. Prof. L. B. Edgum of the High School at Cambridge spent Wednesday afternoon visiting the Newark High School. Miss Foreman, formerly Miss Henderson, State Inspector for Child Labor, was in the city recently and made a call at the high school. Miss Henderson taught here from 1884 to 1894, and it is interesting to note that she was the first teacher that had taken place in the high school equipment and number of students. During her teaching in Newark the first part of the high school building was constructed. Major Arwin, the Lincoln man, gave a fine talk to the school last Monday morning. The Major is eighty-five years of age and knew Lincoln intimately. Saturday Supt. Wilson Hawkins left for Richmond, Va., where he will attend the Superintendent's Section of the National Literary Society meeting and elected officers Friday after school. President, Katherine Davis. Vice President, Edna Hess. Secretary, Helen Laughlin. Sergeant-at-Arms, Grace Killworth. Mary Simpson. Dissecting, Attorney, Ruth Phillips. Treasurer, Dora Montgomery. Chairman, Lou Ella Hawkins. A patriotic program was given before the school and about thirty songs Friday morning at 8:30 by the Ninth Grade. Under the direction of Miss Jones, Miss Pugh and Miss Landon the class gave a short patriotic play "My Country." The play was well rendered and the cast deserves much praise for this first appearance in the high school. The high school orchestra furnished the music before the play and between the acts.

DR. PIERCE'S Favorite Prescription

Take this in liquid or tablet form and be a well woman!

Mrs. Eva Tyler of So. Geneva St., Ithaca, N. Y., says, "I have been in a run-down condition for several years. Suffered from nervousness and a great deal of pain at certain periods. Have taken several different medicines but found your Favorite Prescription has given me the most relief of anything I have ever tried. Am very much better than I have been in some time. I gladly recommend this remedy to any woman in need of a tonic." Write Dr. R. V. Pierce, Buffalo, N. Y.

Now here is a prize in the Advocate Booklovers Contest, that the man of the house as well as the woman will be interested in. It's a beautifully hand-embroidered \$12.00 smoker's cushion purchased from Carnal Sisters in the Y. M. C. A. building.

This smoker's cushion is of fine brown burlap, hand embroidered, in shades of brown, with an effective touch of red. The design of pine combs, most artistically showing the pipe and cigar, with the words "Friends We Pine For"—and he who hits a pipe or smokes a cigar will rejoice in its possession—besides having a useful and handsome ornament for the room.

The Carnal Sisters have been in the millinery business here a number of years, moving from Church street into their present handsome quarters in the Y. M. C. A. building, Corner Church and Third streets. They now carry in addition to the millinery, a beautiful line of embroidery work and supplies, neckwear, scarfs, etc. Their fine show windows are always most attractive and in this beautiful prize in the Advocate's Booklovers contest is now on display. Join in the fun today.

FREE! 100,000 Homesteads in Montana and Oregon

A wonderful opportunity for the homeseeker! The Government is allotting 100,000 FREE Homesteads in Montana and Oregon. Thirty million acres of fertile, undeveloped prairie land are being given away in 320 and 160 acre tracts. You can secure full title in only three years' time under the new homestead law. Get all the facts about this remarkable opportunity!

Bre'r Groundhog Proves to Be Some Weather Prophet; Mercury Falls Rapidly Sunday Afternoon

Most everyone is willing to admit that the lowly groundhog is some weather prophet. Three weeks ago today, he left his winter burrow and came forth to take a squint at the weather. It didn't look good so he forthwith hastened back to his den and curled himself up for another nap of six weeks.

It is very evident, judging from subsequent events, that Bre'r Groundhog knew exactly what he was about. We hadn't seen much winter weather up to that time but we have had more than a plenty since. Many Newark people no doubt wish they might do as the ground hog. A comfortable underground bed these days has certain attractions even to human beings.

Just to show the world in general that the groundhog was wise, the weather man Sunday opened up a bunch of weather on an unsuspecting public, the likes of which have not been seen—for several weeks at least.

The temperature started to fall shortly after noon and it dropped rapidly until Monday morning when

it registered about 10 degrees above zero all over the city.

Sunday morning was warm—so warm in fact that it looked as though the snow would leave rapidly in the form of water. But the thaw didn't last long and by 2 o'clock in the afternoon everything was frozen up tight. The misty rain which had started about noon, turned into sleet, then snow as fine as dust and later of a heavier texture.

This was accompanied by a stiff wind which blew out of the north and later shifted to the northeast. As a consequence, the falling snow drifted heavily. Those who were unfortunate enough to be caught away from home found some difficulty in returning to their comfortable residences. Street car traffic was interfered with to a great extent. The city schedules were broken and many of the cars ran from 20 to 35 minutes late for some time, in fact, until the wind died down in the evening.

With another heavy pull on the gas mains, the pressure dropped a little Monday morning though not enough to cause any serious trouble. Unless there is a further drop no serious trouble is anticipated.

CELEBRATING WASHINGTON'S ANNIVERSARY

In observance of the 182d anniversary of the birth of George Washington, first president of the United States, and "Father of His Country," Monday was observed as the annual holiday in honor of the occasion. All banks and several other business places closed Monday, which becomes the holiday this year by reason of the date falling on Sunday.

Public schools observed Washington's birthday with appropriate exercises, Friday. In the High school a patriotic program was given in the morning.

Only one mail delivery was made by Newark city carriers Monday on account of the holiday observance.

In celebration of the birthday anniversary of Washington the parochial schools were dismissed for the day.

BUSINESS MEN WOULD PURCHASE CHICAGO CLUB

(Associated Press Telegram)
Chicago, Feb. 23.—Negotiations will be opened by a syndicate of Chicago business men for the purchase of the Chicago National league baseball club from Charles P. Taft, of Cincinnati, it was rumored today.

James A. Pugh, William Hale Thompson and Charles A. McCulloch, who represent the syndicate, will hold a conference late today and an offer is expected to be made to Mr. Taft, who purchased the club Saturday.

"TIZ" FOR ACHING, SORE, TIRED FEET

Good-bye sore feet, burning feet, swollen feet, sweaty feet, smelling feet, tired feet.

Good-bye corns, callouses, bunions and raw spots. No more shoe tightness, no more limping with pain or drawing up your face in agony.

"TIZ" is magical, acts right off. "TIZ" draws out all the poisonous excretions which puff up the feet. Use "TIZ" and forget your foot misery. Ah! how comfortable your feet feel. Get a 25 cent box of "TIZ" now at any drug or department store. Don't suffer. We need feet, glad feet, feet that swell, never hurt, never get tired. A year's foot comfort guaranteed or money refunded.

DENISON WINS FROM WESLEYAN OF W. VIRGINIA

Granville, Feb. 23.—The West Virginia Wesleyan five, who are the leading contenders for the championship of West Virginia, failed to display much class against Denison Saturday afternoon. The Big Red team triumphed over the Virginians by the score of 50 to 36. The features of the game were the fine team work of Denison and the wonderful ability of Wesleyan to cage the ball on long shots.

The score was close during the first ten minutes, but after Denison struck their stride the result of the contest was never in doubt.

Denison scored soon after the bat-off, when Prouty caged the oval after some fine team work. Prouty outjumped the Wesleyan centers all through the game.

After Denison caged two more baskets, the Virginians made a spurt and forged to the front. Captain Garrett of the visitors was the cause of some justifiable worry at this time, as he seemed to be able to cage the ball from almost any position.

The visitors maintained their lead for the next five minutes, then Captain Prouty's five began to find themselves and several baskets were made in rapid succession and Denison was soon out of the ruck.

During the first half a number of sensational shots were made by Black and Garrett. On one occasion after a fine bit of passwork Black received the ball and being hard pushed by a Wesleyan guard, was forced to make a hardy try for the basket, using an overhand shot, just after the attempt was made, he fell to the floor, but the oval dropped through the hoops. Garrett, of Wesleyan, also made some hard shots. He was very quick; no sooner did he receive the ball than he either passed or tried for a basket.

Although Denison's fast forward Jones was the opponent closely, the visiting captain scored nearly half the points for his team.

The first period ended with the count of 26 to 15 in favor of Coach Livingston's championship contenders.

The second half was faster and more interesting than the first. Although the black and orange-hosed team from Virginia failed to catch up with the Baptists, they made a number of spurts which were watched with interest.

Denison started the scoring as soon as the ball was put into play. Thiele, who had not entered the game until two minutes before the close of the first half found the basket repeatedly and appeared to have regained his old speed and accuracy. During the latter part of the game he made six baskets which, coupled with one in the first half, netted him seven for the afternoon.

Reese and Jones, the premier guards of the Big Red quintet, sparkled in their ability to dribble. Reese was especially notable in this kind of play. On numerous occasions he darted down the floor to successfully cage the oval.

Jones made some fine long shots and intercepted many of Wesleyan's passes. He was formerly a teammate of "Greasey" Neale, the star left guard of the visitors, when they were in the Parkersburg high school. Neale frequently found the basket on long throws. He is a wonderful floor man, but his ability to cage the oval from the middle of the court is his most prominent characteristic. Twice in the middle of the second period he successfully scored from the center, when the rest of his team was covered. Garrett immediately followed with another which nearly took the breath of the spectators, as all three goals were made in a half minute of play. This was the final attempt of the Virginians to forge to the front. Denison experienced little trouble the rest of the contest.

Wesleyan had been traveling all week playing every night and was not in the best of condition. They played the Michigan Aggies and Notre Dame, but near the finish of the game when time out was taken by one of the players, Captain Garrett asked the Wesleyan manager why Denison had not been scheduled before the other games on the trip as Coach Livingston's players had the best team they had met on the entire trip.

Wesleyan lost a hard contest to Notre Dame Friday night, 35 to 34.

The next game at Granville will be with Ohio Wesleyan. The Methodist five will play in Swasey gymnasium Friday the 27th. This is a very important contest as the state championship for Denison hinges upon this game and the game will be played at Oberlin next Saturday night. The Big Red team defeated Wesleyan at Delaware three weeks ago after a hard struggle, and this will furnish a greater incentive for Wesleyan to win, as they are Denison's most hated rivals and, stung by the defeat of 47 to 0 on the football field, and the defeat in basketball, they will exert their best efforts to win.

Lineup and summary:
Denison—50. West Virginia—36.
Biggs f. Garrett (C)
Black f. Heavener
Prouty (C) f. Resseger
Reese f. Neale
Jones f. Singleton
Substitutions—R. O. D. B. S. for Black; Thiele for Biggs; Jacobs for Resseger
Field goals—Black 3; Thiele 7; Prouty 4; Reese 4; Jones 2; Garrett 3; Neale 4; Heavener 3; Jacobs 1.
Foul goals—Neale 4.
Time of halves—20 minutes.
Referee—Mr. Wambold.

Peril in Labor Camps.
W. J. Leiserman, connected with the Wisconsin industrial commission, reports officially that labor camps are a menace not only to the immediate localities in which they are situated, but to the entire commonwealth. He says that men are housed with no regard for health or sanitation and that there is no attempt to keep down sickness among them. Of fifteen cities investigated where men congregated from these camps, hospital reports showed the following cases that were directly traced to the labor camps: One hundred and fifty-two cases of typhoid, twelve of smallpox, six of diphtheria and twenty-eight other communicable diseases. Mr. Leiserman urges strict supervision of the labor camps.

George Edmiston of Columbus is spending the day in Newark.

A TONIC FOR DYSPEPTICS

When food lies undigested in the stomach it ferments and gas forms. This gas distends the stomach and presses on the heart, causing a pain that sometimes arouses fear of heart trouble. The condition in which gas forms is caused by a low tone of the digestive organs and a lack of rich red blood resulting in deficient nerve force. It is a condition that calls for a tonic.

Dr. Williams' Pink Pills, a tonic for the blood and nerves, have been used with great success in the treatment of this form of stomach trouble. Cold baths in the morning followed by brisk friction with a rough towel will help as they stimulate the circulation but a tonic is essential. Dr. Williams' Pink Pills by building up the blood, restoring the nerve force and making the stomach able to do its work given the most lasting benefit. With their use the appetite increases, digestion becomes normal and improvement in the general health follows with certainty.

You are trying no experiment when you take Dr. Williams' Pink Pills. They cannot harm the most delicate system. You can get Dr. Williams' Pink Pills at the nearest drug store. A copy of the diet book "What to Eat and How to Eat" will be sent free by the Dr. Williams Medicine Co., Schenectady, N. Y.

BLOOD POISON

Pimples spots on the skin sores in the mouth, ulcers, falling hair, bone pain, catarrh, etc., are symptoms. Bacteria are dangerous. Send at once to Dr. Brown, 925 Arch St., Philadelphia, for BROWN'S BLOOD TREATMENT. Convince proof in a 25-cent bottle—lasts a month.

Sold in Newark by Hall, the Drug Co., 10 N. Park, and by all druggists.

TODAY'S BEST PHOTO PLAY STORIES

"SOPHIA'S IMAGINARY VISITORS."
By Booth Tarkington.
Edison.

Sensor David Beasley..... Marc MacDermott
Kate, his fiancée..... Miriam Nesbitt
Her mother..... Mrs. William Bechtel
Kent, her maid..... Blagrove Schults
The machine candidate..... Robert Harvey
Sophia..... Edna Hamel

HERE is real art in this tender little comedy. It is the best thing that the Edison people, who aim for fine rather than startling effects, have done for a long time.

The story centers around a little invalid girl possessed of an imagination of extraordinary vividness and the expedients adopted to amuse her by her soft hearted bachelor uncle into whose care through the death of her parents she has been consigned.

The uncle is Senator Beasley. The story opens with his nomination for governor. He is an easy-going man and he accepts the leadership of his party with a quietness which the politicians interrupt as lack of enthusiasm. His fiancée Kate, a spirited, impetuous girl, takes the senator in their first interview discovers that like many children sick a great deal, she has an abnormally developed imagination. Beasley at first is at his wits' end to amuse her. Then he hits upon the expedient of arranging a series of imaginary events for the child's edification.

Meanwhile Beasley has been so interested in Sophia that he has paid no attention to the politicians. They hold an indignation meeting in which Beasley is unceremoniously rebuffed for the lackadaisical attitude he has assumed toward his candidacy. Incidentally the suggestion is offered that the senator is not in his right mind.

Bardman, the reporter, is able to confirm this rumor. Passing Senator Beasley's mansion he is astonished to discover the senator whistling to an imaginary dog and conducting him after much solicitation up the stairs into the house.

The sequel to this mysterious exhibition is revealed a moment later when the screen discloses Beasley entering the room in which Sophia sits in her wheel chair with the imaginary dog at his heels. Then by means of what the moving picture world calls "dissolves" the spectators are shown that the imaginative child sees a beautiful collie dog curvetting about the apartment.

Bardman rushes back to Beasley's political headquarters and informs the candidate's supporters that he has just seen the senator whistling to a dog and conducting him up the stairs into the house.

The eavesdroppers are, of course, amazed and rushed to the windows to see the rest of the "show." They observe the senator enter Sophia's room and present the imaginary guests. Then the "dissolves" again show what the child sees in all this mysterious make-believe.

Kate is the first to discover the true inwardness of what is going on. Penitent and deeply moved she enters Beasley's house inquiring: "You have so many lovely people here to-night. Haven't you room for just one fool?"

The senator and his fiancée are reconciled and Kate is presented to Sophia. The child falls in love with Kate just as she has fallen in love with Beasley.

"I'm tired of all these people," she says, unceremoniously dismissing the imaginary guests with a gesture, "all I want now is just you two."

Beasley's house the senator advances and with a great air of hospitality ushers the imaginary guests in at the door.

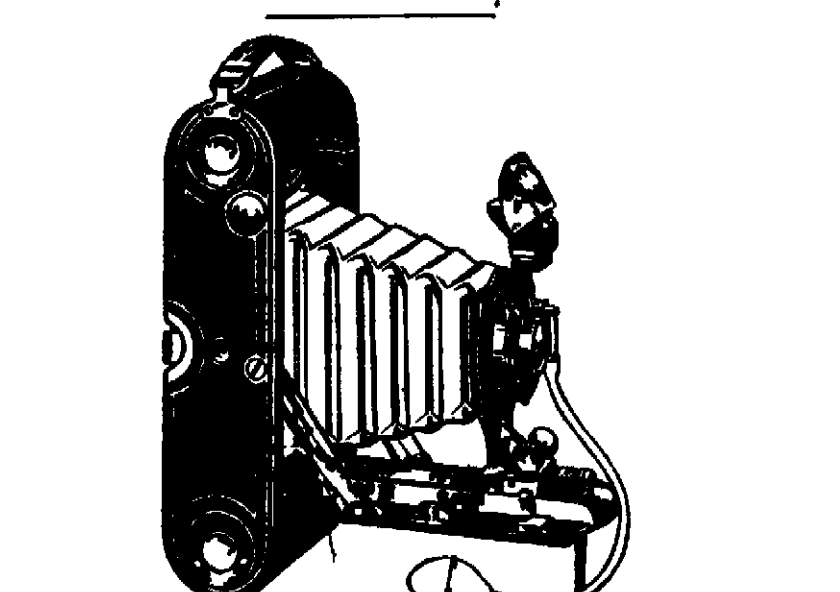

The eavesdroppers are, of course, amazed and rushed to the windows to see the rest of the "show." They observe the senator enter Sophia's room and present the imaginary guests. Then the "dissolves" again show what the child sees in all this mysterious make-believe.

Kate is the first to discover the true inwardness of what is going on. Penitent and deeply moved she enters Beasley's house inquiring: "You have so many lovely people here to-night. Haven't you room for just one fool?"

The senator and his fiancée are reconciled and Kate is presented to Sophia. The child falls in love with Kate just as she has fallen in love with Beasley.

"I'm tired of all these people," she says, unceremoniously dismissing the imaginary guests with a gesture, "all I want now is just you two."

A \$42.50 CAMERA OUTFIT BOOKLOVERS' CONTEST PRIZE

How would you like to own this splendid \$42.50 camera outfit, which consists of a \$35.00 Eastman Camera, a \$5.00 Velox Printing Box and a fine \$2.50 black leather Carrying Case. This is one of the big prizes offered you in the Advocate's Booklovers' Contest and was purchased from the Edmiston Book Store, No. 9 North Third Street.

It is a \$35.00 No. 4 A Folding Kodak for 1-1/2 x 1-1/2 inches with a capacity for six exposures without reloading. Has double combination lens and automatic B. & L. shutter, rising and sliding front, back and pinion for focusing, two tripod sockets and brilliant reversible flasher with hood. It is fully equipped for out of the ordinary work as well as for snap shot and general amateur photography.

The \$5.00 Velox Printing box, the splendid developing machine manufactured by the Eastman Kodak Co., enables you to put the print through the developer and into the water trench without touching by hand, and everyone who has done any photographic work will certainly appreciate getting this.

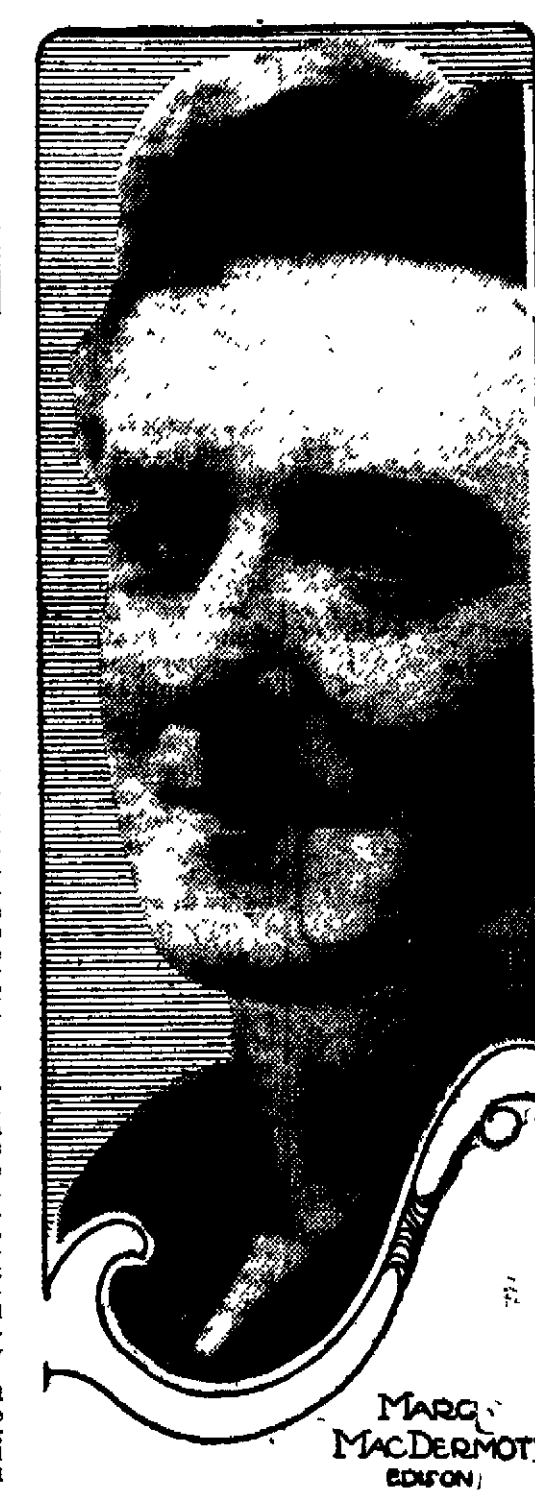

The \$2.50 Carrying Case is of black leather, splendidly made and will be a great source of pride as well as convenience to the lucky winner of this grand outfit.

The Edmiston Book Store, of which T. M. Edmiston is the proprietor, is one of the oldest and most successful business houses of Newark, and carries a large and complete line of books, pictures and picture framing, wall paper, window shades, kodaks, stationery, party favors, etc.

This Camera Outfit can be seen on display in the show window. If you are not already enjoying the pleasure of this big guessing game get the coupons you have missed and begin today. You may become the owner of this splendid camera outfit.

Open to Conviction.
"Some of your constituents are disagreeing with you," said the trusted lieutenant.
"Well, keep 'em on them," replied Senator Sorghum, "when enough disagree with me to constitute a reliable majority I'm going to turn around and agree with them."—Washington Star.

A Wise Child.
"Willie," sadly said a father to his young son "I did not know till today that last week you were whipped by your teacher for bad behavior."
"Didn't you, father?" Willie answered cheerfully. "Why, I knew it all the time."—Woman's Home Companion.

MARC MACDERMOTT EDISON

"THE CLERK."

This compact, well acted play tells the life story of a man "born to be a clerk," who, because he has learned to love a woman, rebels against that destiny and involves himself and the employer who has subjected him to humiliating subservience in a common ruin. The story ends unhappily, but the types are well "taken orders."

The clerk is John Grey. He falls in love with Beatrice, a stenographer in the office in which he is employed. He is a man of no initiative and little courage, who all his life long has "taken orders."

His love affair with Beatrice is of the kind which finds its expression in the timid pressing of hands in public parks. Hendricks, the employer, also is attracted by Beatrice. He finds Grey and the girl sitting together on a bench one Sunday, deliberately appropriates the girl and orders Grey about his business. Grey lacks the spirit to resent this high-handed appropriation of the one thing in life he longs most to possess.

Hendricks marries the girl. Grey's heart is broken, but he is too much of a coward actively to resent it. He continues in Hendricks' employ. His master becomes involved in financial entanglements and commits a criminal act by concealing his assets from creditors. Grey knows of this crime, but Hendricks tells him they both are equally guilty and warns him to keep their secret.

Meanwhile Hendricks has formed an attachment for another woman. While his wife lies dying he dines with her rival. Grey learns that the wife is dying and, seeking Hendricks, finds him with the other woman. He returns to the sick woman's bedside and she expires in his arms.

Then, for the first time he rebels. He calls on the district attorney, confesses his own guilt, and accuses Hendricks. The last scene shows the clerk and Hendricks being led away to jail.

Hendricks marries the girl. Grey's heart is broken, but he is too much of a coward actively to resent it. He continues in Hendricks' employ. His master becomes involved in financial entanglements and commits a criminal act by concealing his assets from creditors. Grey knows of this crime, but Hendricks tells him they both are equally guilty and warns him to keep their secret.

Then, for the first time he rebels. He calls on the district attorney, confesses his own guilt, and accuses Hendricks. The last scene shows the clerk and Hendricks being led away to jail.

"THE ARTIST'S MODEL."

The plot and actors in this picture play are European. The actors are Italian. The story has undergone some modifications, not always happy, to adapt it for production in America.

Ruth, a shepherdess, falls in love with Harry Lester, an artist, while Lester is sketching among the country hills. He brings her to the city, makes her his model, and marries her.

In the city Ruth's wit and beauty win her many admirers. Her love of dress and jewels makes her extravagant and eventually the day comes when her husband is compelled to refuse her an expensive bauble she desires.

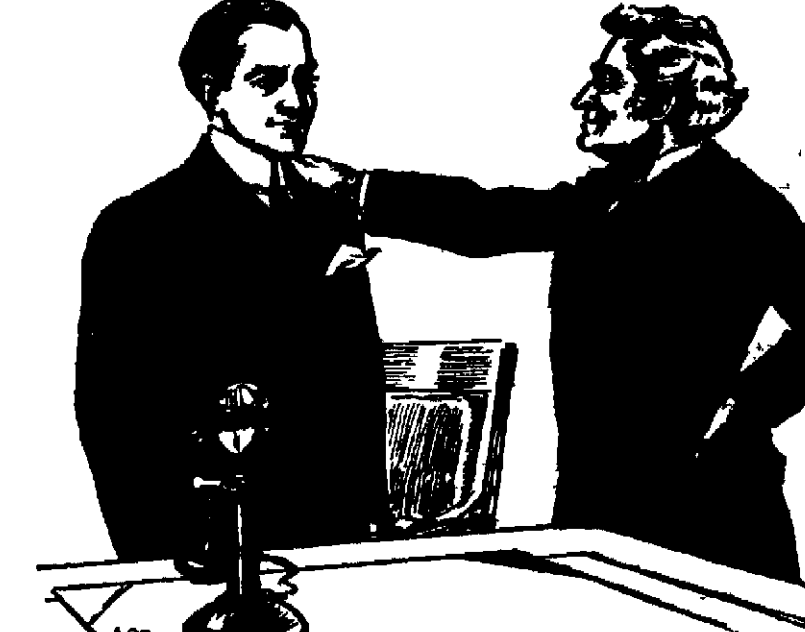

This is the beginning of the end of her love. Soon she leaves the artist to go to Langley, a millionaire banker. Lester, his heart broken and his inspiration gone, sinks into drunkenness.

Want comes to him, but he is unable to work because he has lost the model with whom he did his best work. In desperation he goes to Langley's apartments and appeals to Ruth to come to him, if just for one day, so that he may finish a picture on which he is engaged.

Ruth refuses, but after Lester is gone finds on the floor a note from his landlady notifying him that he is to be evicted. Her heart is touched, and she dresses hastily and steals away to his studio.

Lester has been drinking. He reaches the studio after Ruth has arrived there. To play a trick on him she removes from its pedestal a bust he has made of her and places herself in such a position that when he enters and sees her reflection in a mirror he thinks her the marble itself.

As he gazes at the mirror Ruth smiles. Lester thinks the bust is mocking him and in a fit of drunken fury flings a heavy stool at it. Ruth is felled by the blow, but revives in her husband's arms and thus they are reconciled.

HE BANKED HIS MONEY AND BECAME A BUSINESS PARTNER. YOU CAN DO THE SAME.

You hear them say that "So and So" gave "What's His Name" his first start by taking him in partnership. No! The MONEY HE HAD IN THE BANK gave him his first start. "So and So" needed him and could use him and his money in the business. Besides, the boy who is putting money in the bank can be trusted. Rich men are hunting for them.

Wisdom from Washington

By ARTHUR W. DUNN.

Washington, Feb. 23.—[Special.]—Neither party has made political capital out of the immigration bill. Men on both sides of the political aisle favor and oppose the literacy test, which is about all there is to the immigration measure. At the same time the immigration bill may figure in politics particularly if President Wilson should follow the course of President Taft and veto it on the same grounds.

Such an act will make a great many Democrats sore, because they have championed the literacy test of the immigration bill. Restriction is what is aimed at, and no other feasible method has been found to reduce immigration.

If it were not for the fact that the United States is in no position to discriminate among the nations there is no doubt that congress would pass a law shutting out certain immigrants from southern Europe and other lands and allow those of northern Europe to enter. As this law cannot be passed on account of the international complications which would ensue, the literacy test has been adopted as the means of restriction.

Fish For Food.
As a means toward reducing the cost of living, or to increase the supply of sea food, Congressman Donovan of Connecticut has introduced a bill which would tend to increase the supply of food fish by offering a bounty on small sharks, commonly called dogfish. It has been the custom for various states to offer bounties for predatory animals both large and small. Western members have frequently favored bills providing a national bounty for animals which destroy stock and crops. Donovan's proposition is to give a bounty to fishermen between Eastport, Me., and Cape Hatteras, North Carolina. If he would extend his bill to the entire coast line and then combine with western men he might get a joint measure giving bounties to those who catch predatory fish and predatory animals. A great many men in and out of congress agree with Donovan that something ought to be done to preserve the sea food of the waters adjacent to the United States.

"Countercheck Quarrels."
Like Shakespeare's clown, congressmen rarely go to the point of conflict, but they venture through the various stages of a quarrel, as described by the immortal bard. Congressman Thompson of Oklahoma was making a speech when Minority Leader Mann said, "That statement is incorrect."

"That is your statement about it. I deny it."

"The gentleman is talking wildly, as usual," said Mann.

"The gentleman is talking inaccurately, as usual," said Thompson.

And, as Shakespeare says, "So they measured swords and parted."

Barthold's Latest.
Congressman Barthold of Missouri, who is known as one of the great peace advocates and is also vigorous in the support of many other public matters, proposes to have Esperanto made a part of the regular course of study in the public schools of Washington. Poor old national capital! The public schools of the city have had to undergo a great many fads and fancies and experiments and have suffered accordingly.

Symbolic of Universal Peace.
Senator Newlands of Nevada has introduced a bill appropriating half a million dollars to erect at the Panama canal a statue which shall be symbolic of universal peace. As the canal was built by the United States primarily for commercial purposes, this is a good idea. In reality the canal may be used for war purposes, and the United States intends to make it a part of the national defense.

Of course there is going to be a big monument or statue erected at some point on the canal where everybody passing through will see it, but whose will be the important figure to crown this monument? Harkening back, somebody will discover that one T. Roosevelt took certain steps which made the canal possible at a time when the Colombian government was blocking it.

On Second Thought

Eph Wiley says a popular actress is one who disrobes for the delectation of her audience.

It is just as well to give a woman what she wants. She'll get it anyway.

So far as a vaudeville audience is concerned, a homely old maid is comedy's richest vein.

Every good housekeeper knows how many dishes of ice cream there are in a gallon.

Contrary to a generally accepted theory, women do not dress for men. Women dress for other women.

A man's endorsement of a Cause generally is predicated on the belief that the Cause will help his business.

The taste of the women has improved to the extent that the pug is no longer the favorite breed of dog.

For those who wish to view the spectacle of gentlemen shaving themselves, there is no better field of observation than the crowded toilet compartment of a Pullman sleeping car.

The bankers are loafing today—it's a legal holiday, but the interest on our borrowed money goes on just the same.

Why go to Florida when we have just jolly winter weather as this here in Newark? The mercury wasn't below zero this morning and the snow is less than a foot deep.

The fellow who put the "q" in coupon didn't know what he was doing. "It's 'koopon'."

Now that everybody is studying and talking pictures why not be right and pronounce it "koopon"?

Contest Editor's Query Column

The Advocate will be glad to answer all legitimate questions regarding the contest through the Contest Editor's query column. Questions may be sent by mail or telephone but the answers will be printed in this column so that no contestant will have any advantage over another.

R. O. R.—See tomorrow's Advocate for complete list of contest prizes. We promised 100 prizes but there will be more than that number.

B. C. T.—The diamond ring is on exhibition at Fuchs Brothers' store, North Park place. Take a look at it.

C. O. R.—We note you have received a proposition to buy "probable answers" to the Advocate pictures. Of course the Advocate can not prevent anybody from manufacturing lists of answers and offering them to contestants, but those who offer such lists of "probable answers" know no more about the real answers than you do. No one person in the world knows all the answers to the Advocate pictures.

W. F. Baltic We note you live just across the line in Holmes county, near Coshocton. We should like very much to have you enter the contest but our rules limit the territory to Licking, Franklin, Knox, Delaware,

Coshocton, Muskingum, Perry and Fairfield counties. All coupons submitted must be in the name of a resident of one of these 4 counties.

Several inquirers—The No. 9 picture represents clouds in the background.

A. B. C.—Columbus—The purpose in reprinting the small pictures and list of 70 books from which the pictures were taken in our issue of Feb. 17 was two-fold, first as a courtesy to the thousands of people who became interested in the contest after the first pictures appeared, and second to enable those who had been solving the pictures to check their work. Hundreds have expressed their appreciation of this publication of the pictures while only two contestants have expressed any objection to us.

Reader—The pictures printed to date surely prove that one does not have to possess a knowledge of books to solve the pictures. A child can do it and it is very good for any child to try. It will acquaint him with books.

C. D.—Your question is not a fair one. Please read the rules under today's picture.

O. B. C.—Tomorrow's paper will answer your question fully. It will make an announcement that will be of much interest to you and to every other contestant. Tomorrow's paper should be in the hands of everybody who has thought of entering the big contest. Full list of prizes and other matters of great interest will appear in Tuesday's paper.

West Main—We are indeed pleased with the way the contest has started. The Advocate had anticipated a favorable reception, but the number of people interested is unexpectedly large and this newspaper intends to show its appreciation of this widespread interest. See tomorrow's Advocate.

East End—Sorry, but our mail is so heavy and the demand upon the office force is so great we can not always answer questions the day they arrive. All you have to do is to get the back coupons at this office and start to solve the pictures. If you begin now you can in a few minutes catch up and will then be ready for the picture each day.

Telephone—Don't believe as you hear. Come to the Advocate and we will gladly explain every feature. This newspaper intends to do more than it promised. See tomorrow's Advocate.

P. D. G.—We shall gladly send papers to address given and shall send back coupons, together with catalogue. The coupons can be obtained at this office at any time during the contest at 2c each. The catalogue is 25c or 27c by mail. The paper by mail is 25c a month, 65c 3 months, \$2.50 a year, but this price applies to papers mailed to points outside of Newark.

HEALTH HINT FOR TODAY.

To Obviate Breathlessness.
Dr. Manquat of Paris has a method of obviating the breathlessness that ensues from rapid or uphill walking. It consists in maintaining the rhythm and speed rate of respiration within physiological limits, by utilizing the natural powers of control over the respiratory and expiratory muscles. The rhythm and physiological speed rate maintain the circulation in proper condition. The respiration can be rhythmically adjusted to the pace by prolonging the expiration over about twice as many paces as the inspiration and making not more than from eighteen to twenty complete respiratory cycles in a minute. This treatment may also prove useful in heart and lung troubles, but it should only be taken under medical advice.

NAPLES-ON-THE-GULF OF FLORIDA

Edward W. Crayton, James K. Hamill, Fred S. Mosteller and other men from this section of the country are now in Lee county, Florida, developing a winter resort that is said to be ideal from every natural viewpoint. These men established a reputation in Newark, Columbus, Springfield and elsewhere of "doing things" and of knowing a good proposition when they see it. They are hard at work and already are getting results, but the development they have planned will take several years for completion.

Among the Newark people now at Naples-on-the-gulf, is Colonel Charles H. Kibler. Colonel Kibler sends the following interesting letter to the Advocate:

Naples is situated on the west coast of Florida on the Gulf of Mexico, about fifty miles south of Fort Meyers. It is reached by boat from Fort Meyers on the Caloosahatchie river, eighteen miles to its mouth, and thence thirty miles by the gulf, or by automobile from Fort Meyers.

In writing this paper, be it understood that I have no pecuniary interest in the resort or in the adjacent lands, and that it is not written at the request of the proprietors, or even with their knowledge.

I came here with no prepossessions in favor of or against, the resort, but simply because some of our Newark people have visited it and have talked about it, and from curiosity.

The hotel faces west, on the gulf proper, around it are the several dwellings, cottages and other small buildings, but to no great number.

A long pier leads from the shore to the deep water. The grounds are not yet much ornamented, but the natural growth of trees is standing. The land about the hotel is sandy, but the roadways and some of the streets are surfaced with white shells, which, when packed, will faintly at least, suggest the famous shell roads of New Orleans.

I never experienced a more delightful climate. The alternations in the temperature are not great, if the sun is sometimes warm—you can not well complain of the heat—as the breeze from the gulf tempers it. The nights are cool and sleep is not interrupted by undue warmth.

One is not starved here, on the contrary, the table at the hotel would satisfy an Epicurean.

Think of venison and wild turkey, and large, fat oysters, with these are served fresh vegetable, such as new potatoes, telephone peas and tomatoes—better than I have found on sea or land—and the whole list of garden products. I do not know the cook but would guess she learned the art of cooking in ante-war times in Kentucky or Virginia. In other words, she can cook with her heart in it.

I ought not to forget the fish. In a back bay east of the hotel they are found in great variety of the toothsome sort, and grapefruit six and seven inches in diameter, of the most delicate flavor, are served daily, and oranges that the North never tasted, and the rich jelly of the guava. Further out in the gulf the tarpon are taken of one hundred and fifty pounds weight, and not infrequently, by the venturesome.

The hunter can find deer and wild turkey and bear; ducks in their season abound, and there are quail and squirrels.

There is here a fine tennis court with a concrete floor, men are at work on a golf course on fifty acres of ground, and a railroad from Fort Meyers is in contemplation.

The hotel is a very comfortable caravansary, and is lighted with electricity.

There are country attractions. If one comes to Florida for the winter or for weeks, he must not expect continuous attractions, even in the cities, but if his object is rest, with occasional episodes of sport, with good living, I do not know any point which is the superior of Naples, at hotel Naples.

CHARLES H. KIBLER.

Uncle Walt

Suffragists

The suffrage dames who pay their games just like the whistling fellers, who bravely stand and make demand for votes, are city dwellers. The squawky ones behind the guns have homes that need attention; they run outdoors, neglecting chores too numerous to mention. The city wife a idle life of ease and sloth is leading; no more she makes the ginger cakes, no more the dough she's kneading; she pulls with vim her husband's limb for rhino for her spending, and spends her days in useless ways, in foolish schemes unending. The farmers' fraus have hens and cows to keep them sane and busy; they fix the coops nor give three whoops for movements vain and daisy. They sell their ducks and earn some bucks to buy ten yards of gingham; they henruff sell and husband well the money it will bring 'em. The farmers' wives lead useful lives, and not an hour is wasted; the city ways, the slothful days, they have not learned or tasted. They drive to town in modest gown behind old Prince and Polly, with cash to spare, and do not care for votes or other folly.

(Copyright 1913 by G. M. Adams)
WALT MASON.

COLORED WIGS TO MATCH GOWNS HITS METROPOLIS

(ASSOCIATED PRESS TELEGRAM)

New York, Feb. 23.—Colored wigs to match the gowns they were introduced in New York by two actresses. The appearance of the latest fashion from Paris created a sensation in two fashionable uptown hotels and there was some comment and some remarks. Under the latter heading, Dr. Anna Howard Shaw, the suffrage leader, expressed a philosophical view: "To say the least, they are frank." Mrs. Shaw said they do not pretend to be what they are not. One of the young women wore a green wig to match a Nile gown and the other a purple one that blended with her plum colored suit.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets. These pleasant little tablets do the good that calomel does but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. At 10c and 25c per box. The Olive Tablet Company, Columbus, O. All druggists.

God's Judgments Always Blessings

Lord's Gracious Provision For the World of Mankind.

HIS PLAN OF REDEMPTION.

Eternal Torment Wholly Foreign to the Divine Character—God's Judgments Are "Righteous Altogether." Death the Divine Judgment Against the Race of Adam—God's Special Judgments—The World's Judgment During the Millennium—Healing and Uplifting From Sin and Death Conditions—Destruction Only For the Wilfully Rebellious.

February 22.—Pastor Russell still preaches orally as well as by his free "Photo-Drama of Creation," which is presenting the Gospel to eye and ear daily to thousands in the great cities. His sermons are still reaching millions through the public press. His text for today is: "When Thy judgments are abroad in the earth, the inhabitants of the world will learn righteousness." (Isaiah 26:9.) He said:

Only those who come to an advanced knowledge of God's Word can realize how Divine judgments are all good—all blessed. Under the influence of the fog of superstition, not understanding aught of the teachings of the Scriptures, supposing that they teach eternal torment for the majority of our race, we feared God, rather than loved Him. We dared not say that such a judgment on God's part was wrong, malicious, devilish, yet we were unable to see it in any other light. Hence have come the general perplexity of Christendom, the general alienation of heart, and many intelligent minds driven to infidelity, to dislike to think about God and His supposedly terrible purposes respecting our race, to general awe respecting the Bible, and to fear of its misunderstood teachings.

Word Shining as Never Before.

But now in the dawning of the New Dispensation, the Word of God is shining as never before. One passage illuminating another, our fear gives place to reverential love and filial awe. We begin to understand that the torment doctrines which we received are wholly foreign to the Divine character, which, on the contrary, is distinctly marked by Wisdom, Justice, Mercy and Love toward all. We find ourselves now in agreement with the Scriptural declaration that God's judgments are "righteous altogether," and we delight in them.

Instead of a judgment of eternal torment as a penalty for sin, we find a judgment, or sentence, of death. We agree to the righteousness of that verdict, or judgment. God had a right to demand of His creature the obedience he was able to render. He had a perfect right to destroy him in death when he refused the blessing of life eternal on the terms of obedience. Seeing this, how rejoiced we are to note the Divine Mercy in the Plan of Redemption for the sinner and his offspring through the sacrifice of Christ! As a result we have good hope in His judgments; for He who once judged us worthy of death has with equal justice redeemed us and granted us the opportunity of eternal life through the resurrection.

It was another part of the Divine judgment against our race that, instead of the death penalty's coming instantly upon Adam and Eve, it came gradually, that through the processes of gradual dying they might the better learn the lesson of "the exceeding sinfulness of sin," to the intent that when granted the new trial secured by the merit of Christ's sacrifice, they might profit by it the more. The same principle applies to all of Adam's posterity. "The whole creation groaneth and travaileth in pain together until now. . . . waiting for the manifestation of the sons of God." (Romans

8:22, 19.) They are waiting for the establishment of Christ's Millennial Kingdom, under which they will have a full opportunity of coming to a knowledge of the Truth.

This is God's provision for the world in general! What God did for Natural Israel during the Jewish Age, and what He has been doing for Spiritual Israel since Pentecost, in this Gospel Age, are matters separate and apart from His general dealing with mankind. The natural and the spiritual seed of Abraham are exceptions to the rule. Natural Israel under the Law Covenant and Spiritual Israel under the Abrahamic Covenant have been granted special privileges and blessings not granted to the world in general.

From these two nominal Israel's special "overcomers" have been chosen, or elected. These shortly, in association with the Redeemer, will constitute the Kingdom of God. The overcomers of Spiritual Israel, becoming the Bride of Christ by resurrection change to the Heavenly nature, will be like Him and share His glory, and will constitute the Kingdom class, in the highest sense. The overcomers of Natural Israel, resurrected to the perfection of human nature, will constitute the earthly phase of the Millennial Kingdom. Mankind may see and have intercourse with these, but will not see nor have direct intercourse with the glorified Christ. Head and Body—the King of Glory.

"God Will Judge His People."

So far as the world is concerned, it has been under the one general sentence of Divine Justice. "Dying, thou shalt die." But Natural and Spiritual Israel have been dealt with as freed from the original sentence and on trial for life or death afresh under God's judgments, or disciplines. Thus it is written, "Jehovah will judge His people." Not all under these judgments have understood them; not all were in the condition of heart to receive their instructions.

"The secret of the Lord is with them that fear Him; and He will show them His Covenant" (Psalm 25:14). Thus, during the Jewish Age, Israel often lapsed into more or less darkness and idolatry, and failed to see their special privileges and relationship to God under their Covenant. But amongst them were the few who with the eye of faith discerned the righteousness of God's dealing with them. Of these were the Prophets, who rehearsed the Divine rewards and punishments, declaring that they were true and righteous altogether and merciful in the extreme.

Similarly during this Gospel Age Christendom as a whole has not been in the condition to hear, to understand, to appreciate, the judgments of the Lord. But some have been "Israelites indeed," who possessed the secret of the Lord and who were able to rejoice in His judgments—His righteous dealings. They have realized by faith God's love for them. "The Father Himself loveth you" (John 16:27). By faith they have appreciated the Apostle's assurance that "all things work together for good to them that love God, to them who are called according to His purpose."—Romans 8:28.

God's Judgments in the World.

We have seen that God's judgments in the past have been merely with those who shall constitute the Seed of Abraham (natural and Spiritual), through whom, according to the Promise, "all the families of the earth shall be blessed" (Genesis 28:14). We now note the fact that our text does not relate to either of these; for their judgments could be discerned only by the eye of faith. Our text refers to the world's judgments during the Millennial Age. Then God's judgments will be abroad in the earth—not confined merely to one nation or especially called class—and will include every member of Adam's race. And while these are declared to be the Lord's judgments, note the fact that they will be administered by The Christ of which our glorified Redeemer will be the Head, and His members, when glorified, will be the Body—the Church.

The judgments of the Lord abroad in the earth will not mean havoc and dismay to mankind in general, but the very reverse—relief, assistance, to all who come into line with all the righteous arrangements of that Kingdom, destined for their uplifting from sin and death conditions. The judgments of that Day of a thousand years will

be severe—even to destruction, against the wilfully, the deliberately rebellious, after they shall have been brought to a clear appreciation of right and wrong, good and evil, and their results—life and death.

Mark the statement of the Prophet David when prophetically referring to the Millennial Age. He points out that the judgments of that time will be a cause of gladness. He says:

"Say among the heathen that the Lord reigneth; The world also shall be established that it shall not be moved; He shall judge the people righteously. Let the heavens rejoice, and let the earth be glad; Let the sea roar, and the fulness thereof; Let the field be joyful, and all that is therein; Then shall all the trees of the wood rejoice Before the Lord; for He cometh, For He cometh to judge the earth; He shall judge the world with righteousness, And the people with His Truth."—Psalm 96:1-12.

A Millennial Judgment Day.

Note the words of St. Paul respecting what God has in reservation for the world. He says: God "hath appointed a Day [the thousand-year Day of Christ] in which He will judge the world in righteousness by that Man whom He hath ordained."—Acts 17:31. In this work ordained for our Lord He is to have associates—the elect Church, His members, of whom the Apostle writes, saying, "Know ye not that the saints shall judge the world?" (1 Corinthians 6:2.) And the Ancient Worthies enumerated by St. Paul (Hebrews 11:22-40) will also be judges, earthly representatives of the Heavenly Kingdom. As it is written, "I will restore thy judges as at the first and thy counsellors as at the beginning."—Isaiah 1:26.

Our all-wise Creator, who has thus provided both the Heavenly and the earthly judges of the world in the election from Israel and the election of the Gospel Age, has thus demonstrated, to the few who understand "the secret of the Lord," "the Mystery hidden from ages and dispensations" past. It is evident that there will be no disappointment, no failure, in respect to God's great Oath-bound Covenant made with Abraham—"In thy Seed shall all the families of the earth be blessed." The basis of the blessing is the redemptive work of Christ, finished at Calvary. The outworking of that blessing will come through the glorified Lord and the Church, His Body.

The first work will be the establishment of a righteous government in the hands of those already proven absolutely loyal to God and to His righteousness—faithful even unto death. We may have full confidence that in that Kingdom justice will be laid to the line and righteousness to the plummet, as God has promised. (Isaiah 28:17.) Not only so, but we may have full confidence that mercy will have a free hand there, to do all for mankind that would be reasonable and possible. The combination of a strong Government with merciful assistants is assured by the fact that our Lord will be, not only the great King, but also the great Priest, Prophet and Teacher. Even so, also, the Church shall be kings and priests. Their office, their service, will be a combination of ruling and healing, instructing and uplifting.

Everything done will come under the head of judgment—righteous dealing. Every good deed, yea, every good effort, will be rewarded. The judgment will be a blessing. It will mean an increase of harmony with the Lord and of character development, and restitutive physical experiences. (Acts 3:19-21.) Instead of the ways of darkness there will be the way of light. Instead of the broad road leading to destruction, with the masses going down thereon—to the tomb—there will be the Highway of Holiness. Instead of stones of stumbling, we are assured that all the stumbling-stones shall be gathered out of the way. Instead of beastly violence, overmastering temptations and besetments, devouring mankind because of their inability to resist the Adversary, the Bible assures us that Satan will be bound and that the wild beasts of vice and degeneracy will all be brought into subjection. Thus nothing "shall hurt or destroy in all God's holy Mountain [Kingdom]."—Isaiah 11:9-35:8.

The Messianic Psalm—seventy-second—finds its application in that glorious Millennial Epoch. Thus we read: "Give the King Thy judgments, O God, and Thy righteousness unto the King's Son. He shall judge Thy people with righteousness and Thy poor with judgment [justice]. . . . He shall judge the poor of the people. He shall save the children of the needy and shall break in pieces the oppressor. . . . He shall come down like rain upon the mown grass, as showers that water the earth. In His days shall the righteous flourish; and abundance of peace as long as the moon endureth."

"The People Will Learn Righteousness."

As already shown, God's dealings in the past have been with the world only in the sense of executing a general sentence for Adam's sin—a death sentence with all that it involves of mental, moral, and physical degeneracy—dying. All of God's special judgments have been with those who were justified to special relationship through faith. If we were to judge of the number who will be blessed during the Millennium by the numbers in the Little Flock of Natural Israel and the Little Flock of Spiritual Israel, saved under God's judgments in advance of the Millennium, the outcome of the world's judgment would not appear favorable.

But these would not be fair criteria. Present conditions are permitted to test and to prove the faith as well as the obedience of those who are under trial, or judgment, and who have such

QUICK AND SURE STOMACH DOCTOR

"Pape's Diapiesin" ends indigestion, gas, sourness and stomach misery in five minutes.

Time it Pape's Diapiesin will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pape's Diapiesin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapiesin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapiesin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.

a faith as permits them to grasp the glorious features of the present call. Consequently, few there will be who will find the great reward now offered. —Matthew 7:14.

This is as God designs it, because He is selecting a special class. But the arrangements made for mankind in general are that the darkness and sin of the present time shall flee away. The dawning of the Millennial Morning, with the rising of the Sun of Righteousness with healing in His beams (The Christ in glory to enlighten the world), will mean that knowledge will be granted mankind—facts, evidences, proofs.

The world will not be required to "walk by faith and not by sight," as are the Elect of the Gospel Age. Instead of the EYE OF FAITH of the present time will be the EYE OF UNDERSTANDING (knowledge), then. Instead of the secret of the Lord being kept from the world, all of His gracious purposes will then stand fully revealed. "The knowledge of the glory of God shall fill the whole earth as the waters cover the great deep" (Habakkuk 2:14). As a result, none shall need to say unto his neighbor and to his brother, Know the Lord, for all shall know Him, from the least to the greatest of them. Every knee shall bow and every tongue confess, to the glory of God (Jeremiah 31:24; Romans 14:11; Philippians 2:10, 11). When every good deed shall receive promptly and manifestly its reward, and every evil deed shall receive promptly its punishment, the world will speedily learn to avoid the punishments and to win the rewards by obedience to the laws of the Kingdom.

The Scope of Our Text.

The Prophet in our context personates The Christ, Jesus the Head and the Church His Body. Note the statement in our context: "With my soul I have desired Thee in the night." The night of sin has been upon the world for centuries. The Morning is at hand, but not yet fully come.

During the night time the faithful of the Church are represented as walking in the light of God's Word. "Thy Word is a lamp unto my feet, and a lantern unto my path." (Psalm 119:105.) St. Peter says: "We have a more sure word of prophecy, to which we do well to take heed as unto a light shining in a dark place—until the Day dawn and the Day Star arise. (2 Peter 1:19.) In this night time the Elect are different from the majority of those around them. They desire God's righteousness and they pray: "Thy Kingdom come; Thy will be done on earth, even as it is done in Heaven."

Vigorous Men and Women are in Demand

If your ambition has left you, your happiness is gone forever unless you take advantage of Evans' drug store magnificent offer to refund your money if Wendell's Ambition Pills do not put your entire system in fine condition and give you the energy and vigor you have lost.

Drives Out Tired Feeling

23,936 FORDS BUILT IN JAN'Y; A BUSY FACTORY

Detroit, Mich., Feb. 23.—January is not supposed to show the high water mark of production in the automobile world, but nevertheless, the first month of 1914 shows the largest output of any month in the entire history of the Ford Motor Co. During the month of January this year the Ford Motor Co. built and shipped 23,936 cars. The largest month's output previous to this was June, 1913, when the number of cars made and shipped reached the total of 22,049.

These figures show how the Ford business is growing even beyond the extraordinary proportion it reached last season. To achieve such production figures every department and every executive, in a sense, had to grow too. The Ford plant is constantly adding new machines and devices, constantly testing new systems and methods to diminish the labor, speed up the operations, to save time, energy and the like. In this way only can production keep pace with business. These time and labor saving systems (and some remarkably interesting ones have recently been adopted), form some of the most fascinating features for visitors to inspect.

Through the Newark dealer, A. P. Hess, the Advocate has just bought a 1914 Ford car to be given as one of the prizes in the Advocate Book-lovers' Contest. There will be 135 prizes in all, with a value of \$3,846.

SENATE

(Continued from Page One.)

secretary for foreign affairs, "after full consideration of the series of victimizations of British subjects in Mexico, culminating in the removal of William S. Benton by General Villa at Juarez."

Mr. Acland informed the house that the British government had been in frequent communication with the governments of the United States and Mexico respecting the protection of British lives and property in Mexico. "The continued fighting in Mexico," he added, "is of very great prejudice to British and other commercial interests and is a matter for very great concern."

Mr. Acland promised to lay the papers on the subject of Mexico before the House of Commons as soon as possible but he added significantly: "The most interesting papers at the British foreign office, however, are communications made at various times with the government of the United States concerning its policy and its views regarding Mexico. Some of these are of a confidential character and I cannot include them in a Bluebook without asking the consent of the United States government."

Mr. Acland emphasized the undesirability of publishing anything at present which might tend to increase the chances of danger to British property at the hands of the contending parties in Mexico.

The history of the Benton affair as contained in the information furnished to Sir Cecil Spring Rice, British Ambassador to the United States state department at Washington was communicated in official form to the house of commons today by Sir Edward Grey.

The putting to death of William S. Benton, a British subject by General Villa at Juarez, has aroused the British parliament and people to a keen appreciation of the British interests involved in the Mexican situation.

The killing of Benton was the principal subject up for discussion before the House of Commons this afternoon. A full house listened with interest to explanations given by Sir Edward Grey, the British foreign minister, and Francis Dyke Acland, parliamentary under secretary for foreign affairs. They spoke of the British government's attitude and discussed their communications with Washington.

A significant cheer was given by the members of the house when Sir Edward Grey said that Sir Cecil Spring Rice, the British ambassador at Washington had told Secretary of State Bryan public opinion in Europe was likely to be seriously affected by General Villa's doings.

Sir Edward Grey explained fully that Great Britain did not hold the United States responsible for Villa's acts but he said the British government was powerless to take any measures in the disturbed regions.

Several members questioned the secretary for foreign affairs to make sure that the government was taking all possible steps to learn the facts of the Benton case. Walter Hines Page the American ambassador expressed his personal regret at the killing of Benton in an informal talk today with Sir Edward Grey.

INJURED BY FALL IN THE BATH ROOM

Mrs. William May residing in 52 South Pine street was injured in an unusual way on Sunday at her home. Mrs. May slipped on the linoleum covering the bath room floor and in falling struck her side against the bath tub.

Dr. Carl Evans was called to attend her and an examination disclosed the fact that three ribs had been broken.

BURNED WORKING IN OIL FIELDS EAST OF CITY

Isaac Brown, a pumper employed in the E. H. Everett oil fields, east of the city was seriously burned early Monday morning.

Mr. Brown was engaged about his duties when one of the smaller steam engines used in the field exploded and the scalding steam burned Mr. Brown about the face, shoulders and arms. He was brought to the office of Dr. Harry H. Postle where the burns were dressed and he was taken to his home east of the city.

EVERYTHING IN TOILET ARTICLES

The most necessary things these days are toilet articles. We never realize how dependent we are on them until by accident we find ourselves without them. The City Drug Store prides itself on its splendid lines of toilet articles of every description—and carries in stock everything that is good and reliable in this line and everything is so reasonably priced.

The City Drug Store is the great prescription store. Keeping as it does three registered pharmacists in constant attendance, so many people take their prescriptions here knowing there will be no long waits and that they will be correctly compounded. Take your next prescription there and see for yourself.

The City Drug Store has the famous Nyal Remedy. Just the thing you need to help that cold is there.

Mexico where European powers have no consular representatives. The general disposition has existed among European nations for some months to leave the United States as Mexico's "nearest neighbor" free to handle the situation alone. One direct effect of this is that although Benton was an Englishman, the United States feels called upon to render to Great Britain a full circumstance explanation. Such details as have been received already have been communicated to the British ambassador, Sir Cecil Spring Rice, who, it is understood, has expressed appreciation of the prompt solicitude shown by the American government for the welfare of British subjects.

Thus far the state department has learned only Villa's side of the case, which in brief, sets forth that Benton, a high tempered individual, provoked a quarrel, was armed and threatened the life of Villa. The night of the constitutionalist commander to sentence Benton to a courtmartial and execute if he did make an attempt on Villa's life is not questioned by the American officials and in the absence of proof to the contrary, it will be difficult to reject Villa's version of the affair.

The story of Benton's friends that he was unarmed, that he was killed by Villa in person and then courtmartialled is carefully being taken into consideration by officials who are receptive to any evidence that would substantiate those claims.

If Villa's story is accepted by the state department—and there is reason to believe Great Britain will reply upon the judgment of the United States government—there is no question in the minds of close observers that the confidence hitherto felt by the Washington government in the disposition of General Villa to extend protection to foreigners will be somewhat shaken. Just as Villa had given satisfactory assurances that he would protect Spaniards at Torreon and as the American government was acquiring a feeling of relief that it would not be worried with perplexing problems in connection with the protection of foreigners in northern Mexico, the incident has re-awakened discussion of the American problem.

Administration officials realize that the situation is fraught with all sorts of possibilities, in which the unexpected often plays a vital part.

The feeling that a repetition of the Benton incident may force the American government to a change of policy is apparent in official circles, but it is known that both the President and his cabinet have time and again rejected the idea of intervention because they did not believe it would by any means bring permanent peace to Mexico.

Discontented elements, they believe, will continue to prevail there until a political and economic readjustment has taken place inside the country. "No one outside of Mexico can accommodate her affairs," according to the view of the Washington government—and there is nothing in sight to indicate that this point of view will be changed.

The United States since lifting the embargo on arms has awaited the settlement of Mexico's civil strife by her own warring factions without outside interference. Military activity, however, since then has not encouraged the prospects of a quick settlement. The campaign by the constitutionalists against Torreon has lagged. The suggestion that this is occasioned by a possible plan to form a new Republic of the new states is not a new one here.

BLANKETS

AFTER-INVENTORY PRICES NOW IN FULL FORCE

MANY CHOICE LOTS OF NEEDED WINTER MERCHANDISE AT GREAT SAVINGS

Inventory has revealed many choice lots of splendid winter merchandise. In some instances the quantity is not large, so they are given an after-inventory price to clean stocks. It will pay you to share in these extraordinary values.

PROPERTIES FOR SALE

The following under-mentioned properties of the late Daniel Thomas, 163 W. Locust St., Newark, are now open for sale. This is a rare opportunity to purchase a house or a home situated in a beautiful part of the town, and well located. All the properties were painted last summer and then placed in good repair. Intending purchasers may view any of the properties and obtain further information from either, or both, undersigned executors:

- 163 W. Locust St., cor. of Seventh St., beautifully situated, with garden, barns, etc., with sufficient ground to build two houses thereon.
- 153 Columbia street.
- 157 Columbia street.
- 159 and 161 Columbia street, a new modern double frontage home, only occupied 12 months.
- 163 Columbia street.
- 168 Columbia street and corner of Eleventh street.
- 164 Eleventh street, adjoining the other properties on Columbia street.

Executors—Robert Northey, 163 West Locust street; telephone 1852. C. L. Flory, Flory & Flory, Trust building; telephone 1757.

The HOME Building Association Co.

NEWARK, OHIO.

Your Dollar Is Welcome

You do not have to have a large sum to open a savings account here. In fact one of the primary purposes of this Association is to encourage small savings. The small saver however should not deposit a small sum and then stop. A few dollars does not make a reserve fund

Keep adding to your savings, preferably on some systematic plan and the total will count up so fast it will amaze you. We add four per cent interest.

FAMILY LIVES IN WAGON, BUT GETS INTO COURT

Juvenile court Monday found itself facing another of the many unique situations presented to that tribunal for adjustment, when Samuel Ayers and family, nomade, were brought before Judge Hunter and probation officers. Ayers and his wife are charged with contributing to delinquency of minor children.

The family was found sleeping in a wagon, in Twenty-first street Saturday night. One girl, said to be sixteen, never attended school more than two weeks, it is asserted. Mrs. Ayers and two boys, aged fourteen and ten years, came to Newark a month ago and lived with a family in Twenty-first street. The latter part of last week the father and mother arrived in the wagon. Police brought them in Sunday, and Judge Hunter set the case for Wednesday.

The friends and soldier comrades of Mr. R. W. Bone will be sorry to learn of his serious illness at his home, corner of North Fifth and Hoover streets.
